Experience

Co-Founder *Single Quote*

Feb 2019 — Present

Ideated, prototyped, developed, and launched software for 15+ clients ranging from early-stage startups to large entreprises in France, Switzerland, and Canada. Worked on web & mobile apps, dashboards, online stores, and landing pages. Some notable client work includes:

Product Designer *Mamoon*

Client work · Nov 2022 — Jan 2023

Designed and helped develop a task-sharing mobile app for new parents. Conducted and gathered data from stakeholder interviews and secondary research, created user journeys, information architecture, and user flows. Designed and iterated on high-fidelity prototypes based on client feedback.

Product Designer *VitalSign*

Client work · Jun 2021 — Jan 2022

Led the design and front-end development of a contract management app. Conducted and gathered data from user interviews and secondary research, designed and collected feedback from high fidelity prototypes, built and maintained the entire design system for the product.

UX Designer & Front-end Developer *French Department of Justice*

Client work · Mar 2020 — Aug 2020

Designed and helped build a project management app for French court bailiffs. Ideated, wireframed, and designed high-fidelity prototypes incorporating findings from user surveys and interviews. Built a complete design system and created all visual assets for the product.

Education

University College London *Postgraduate Diploma, HCI*

2020 — 2022 · London, UK · With Distinction

Bishop's University *Bachelor of Arts, Information Technology*

2017 — 2020 · Sherbrooke, Canada · With Distinction

Skills
